

Airlock WAF Hardware Appliance

Now you have the choice: Airlock WAF software or hardware appliance. Our hardware appliance is a cost-effective world-class web application firewall solution. It is deployed quickly and easy to manage. In pairs, Airlock WAF hardware appliance may form a failover cluster with active session synchronization. Your users won't even notice maintenance windows anymore.

Easy Installation

The Airlock WAF hardware appliance allows a quick and easy installation and integration into your network. The preconfigured system with hardened Linux gives you a solid foundation for implementing your security policy.

High Performance

The hardware was selected to enable optimal performance of Airlock WAF.

Failover Cluster

With an Airlock WAF failover cluster, you don't need to worry about outages, downtimes or maintenance windows. The second appliance will seamlessly take over without losing any sessions.

High Throughput

The Airlock WAF hardware appliance is optimized for high throughput. Load-balancing and back-end failover functionality greatly improves performance and availability of your web applications.

One-stop Support for Hardware and Software

In case something should go wrong you get support for hardware and software from a single vendor.

Quick and Easy Replacement

With our optional next business day exchange service you get the help you need if something goes wrong,

Specifications:

Airlock WAF Hardware Appliance Medium:

Model:
HP DL360 Gen 9

CPU:
1x E5-2609v3 2.5GHz

RAM:
16 GB

Disc:
2 x 300 GB

Miscellaneous:
4x Ethernet, 2x VGA, IPMI, Rails

Number of concurrent sessions:
9.000 HTTPS

Airlock WAF Hardware Appliance Large:

Model:
HP DL360 Gen 9

CPU:
2x E5-2640v3 2.6GHz

RAM:
64 GB

Disc:
2 x 300 GB

Miscellaneous:
4x Ethernet, 2x VGA, IPMI, Rails

Number of concurrent sessions:
40.000 HTTPS

About Airlock Suite and Ergon Informatik AG

Founded in 1984, Ergon Informatik AG is a leading developer of bespoke software solutions and products. The cornerstone of our success: 235 highly qualified IT specialists who are committed to creating value for the client, anticipating technological trends and designing solutions that generate competitive advantage.

Airlock Suite deals with the issues of filtering and authentication in one complete and coordinated solution – setting standards for usability and services. Airlock, our security product, was launched on the market in 2002 and is now used by 300 customers around the globe.

Ergon, the Ergon logo, «smart people smart software» and Airlock are registered trademarks of Ergon Informatik AG.
